COVER DESIGN BY JARED ROBINSON

Welcome to Moose Jaw's Holiday Season!

On behalf of Moose Jaw City Council and the City of Moose Jaw, it is my pleasure to welcome you to Moose Jaw as we celebrate the sights, sounds, and spirit of the holiday season.

There is something special about this time of year in Moose Jaw. Our downtown streets come alive with festive displays, local shops are filled with unique gifts and seasonal treasures, and businesses throughout the community offer warm hospitality to residents and visitors alike. Whether you're searching for the perfect gift, enjoying a holiday outing with family and friends, or discovering Moose Jaw for the first time, we invite you to make lasting memories here.

The celebrations begin with Christmas in October, taking place October 22 to 25, when Tourism Moose Jaw and the Downtown Moose Jaw Association transform our community into a festive destination. From beautifully decorated storefronts and extended shopping hours to special events and seasonal activities, there are countless opportunities to experience the best of Moose Jaw throughout the holiday season.

As you explore all that our community has to offer, I encourage you to support local businesses and enjoy the many experiences that make Moose Jaw such a welcoming place to live, work, and visit.

To learn more about upcoming holiday events and attractions, visit tourismmoosejaw.ca. Wishing you a joyful holiday season and a wonderful stay in Moose Jaw.

Sincerely,

I love Christmas. Working on the concepts and designs for the Moose Jaw Wish Book over the past four years has been a joy for me. But each year also brings the challenge of finding a new angle that feels uniquely Moose Jaw.

I lucked out with the very first cover. The clock tower glass at City Hall was being replaced, giving me the rare opportunity to climb inside and photograph Main Street from above. Precariously perched in the tower trying to capture the right shot, I got to experience a part of our city I had only ever stared up at from the street.

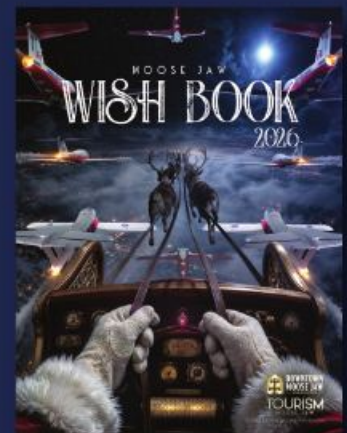

This year's idea came after hearing all the conversation surrounding the grounding of the Snowbirds. Whether you agree with the decision or not, I think most of us feel a little pride whenever those jets fly over Moose Jaw. I thought perhaps the Wish Book could give them one last flight. On Christmas Eve. With Santa.

Bringing that idea to life involved photographing pieces of Moose Jaw and stitching them together into something a little magical. I photographed the underside of a Tudor jet from several angles at the Tourism Moose Jaw Visitor Centre. Then, with permission from the Western Development Museum (and the help of a very long extension ladder), I climbed as high as I could above their display jet to photograph it from above..

Even Santa's sleigh has some local history in it. Details photographed from the WDM's collection of vintage automobiles became the brass gauges, dials and fittings of Santa's dashboard.

The final cover is a composite of photography, design, layering and light, but at its heart it's simply my Christmas card to Moose Jaw. A familiar view of something uniquely Moose Jaw, with just enough imagination to make the impossible happen.
